[Classic Car Parts](#)

For Sale - Aston Martin Restoration Project.

This car offers the purchaser an outstanding and rare opportunity to acquire an early Aston with the scope to apply your own individual choices, details, and specialist skills. This is a totally complete and fully original car, making it very rare indeed.

It has been in storage for 25 years with the engine and gearbox removed due to a cracked engine block (which is fully repairable). As you can see from the photographs the bonnet is off, this is so the car could fit in our garage, the engine and all other parts are stored all together, all accounted for and catalogued. The rest of the car is untouched and as stated, in its original condition. Whilst it may appear from the photos that this is a major restoration project it benefits from been accident free, relatively corrosion free, without later modifications (original body, chassis, engine, gearbox) and coming with complete original interior - including period radio. However, it still remains a project not for the light hearted! Mileage 96,779. 3 owners since 1967.

All in all this is a very worthwhile project for any Aston Martin enthusiast. I would be happy to answer any queries and I also have additional photographs.

Category: [Classic Cars](#)
Make: [Aston Martin](#)
Model: DB 2/4 Mk I
Year: [1956](#)
Country: UK
