Chassis N.: 4250 R
 Engine N.: 400/4589
 Colour: Burgundy
 Interior: Black leather

This is a total restoration project. The kind of car you are looking for when you want to start a restoration, totally original, 100% complete including badges, and never ever touched. This is a British car from new, right hand drive, automatic transmission.

The odometer records 42,900 miles but we have no idea if it reflects the real mileage, anyway given the fact the car needs a total restoration we doubt this is of any real importance for the purchaser.

The car is currently located in North of France, close to city of Lille, and available without papers except for a sales invoice which will be issued by the owner.

British export Registration can be provided upon request to DVLA. (British registration office)

This vehicle is available immediately. Please contact us for further details.
