**Description** (revised)

Recently discovered Aston removed from barn after almost 20 years. Before that, it was fitted with a Corvette engine which runs great. Recent limbering up of brakes and fuel system makes this a nice driver as is. A correct original engine is also available if buyer so desires.

Includes new Dayton chrome wire wheels with Pirelli 185HR-16.

Can be viewed and tested in Redlands California by appointment. Call 310-795-7791

No TIRE KICKERS nor TYRE KICKERS!

On Aug-19-08 at 18:26:32 PDT, seller added the following information:

Many have asked if the original firewall was altered when the Corvette engine was installed. I have attached photos of my car's firewall (the dirty ones) and an original car's firewall (the shiny one) for comparison purposes. It appears that a small cut or dent was made at the top of the passenger's foot box to accommodate the right-hand rear of the Corvette's valve cover.
