**1960 Aston Martin DB4**

**SOLD**

1960 Aston Martin DB4

Australian "barn find" Aston Martin DB4, 1960 Series 2. This wonderful example of David Brown's workmanship has lain dormant in NSW's super dry climate for 36 years. Showing only 53,289 miles, everything is still there and has been protected from the worst of the elements.

Complete and original, a once in a life time opportunity to recreate a motoring legend. Either restore yourself or allow our craftsmen to handle the job for you.
